

**SILVER OAK
UNIVERSITY**
EDUCATION TO INNOVATION

Assignment 1:- Figma Screen Design

Student Name: Shah Kenil

Enrollment Number: 2502031030049

Semester: 4

Course Name: Web Technology with UI/UX

Course Code: 2010043228

Title: Assignment 1

Assignment 1 - GitHub Repository and Figma Design

Task 1: GitHub Repository Creation

This task includes creating a GitHub repository using the enrollment number as repository name. Two folders named Assignment_1 and Assignment_2 were created. The repository is used to manage UI designs and website source code.

Steps Performed:

- 1.Created GitHub repository named 2502031030049.
- 2.Created Assignment_1 and Assignment_2 folders.
- 3.Uploaded UI design files and website code.
- 4.Maintained structured project workflow.

Task 2: Figma UI/UX Prototype Design

A modern dark-theme Gym Website UI named 'PowerFit Gym' was designed in Figma. The design follows modern UI/UX principles including grid layout, spacing system, and responsive components.

Screens Designed:

- Home Page
- About Page
- Membership Plans
- Classes Schedule
- Trainers Section
- Gallery
- Testimonials
- Contact Page
- Login/Signup
- Mobile Home Screen

Assignment 2 - Website Development using HTML & CSS

Task 1: Website Development

The designed Figma screens were converted into a functional website using HTML and CSS. The website includes structured layout with header, navigation menu, hero section, membership plans, and footer. Modern styling such as dark theme colors, card layouts, and responsive spacing were applied.

Technologies Used:

- HTML5
- CSS3
- Figma for UI Design
- GitHub for Version Control

Task 2: Code Upload

All HTML and CSS files were uploaded in Assignment_2 folder of the GitHub repository as per submission guidelines.
